

Taken for a Ride

Cock Sparrer

Now you think you're something you think you can fight
You think you can take me down so long with the tie
We ain't gonna win like you want us to
We won't do nothing 'cause we're through with you

We've been taken for a ride
We know what's right, but we're always denied
Taken for a ride
We ain't got nobody on our side
When we fall we never get to be flying high

We ain't gonna listen, we don't do well
You can take your money, you can go to hell
We won't do nothing and that's to say
And you can take everything and go away

We've been taken for a ride
We know what's right, but we're always denied
Taken for a ride
We ain't got nobody on our side
When we fall we never get to be flying high

Is everybody running around and telling me just what to do
If I'm gonna listen to you, you know what you gotta do
I'm gonna stay around and no longer [?] you're like a stick
You can piss off!

We've been taken for a ride
We know what's right, we're always denied
We've been taken for a ride
We ain't got nobody on our side
When we fall we never get to be flying high
We never get to be flying high
