

## Watch Your Back

Cock Sparrer

Everybody's talking about revolution  
Everybody's talking about smash the state  
Sounds to me like the final solution  
Right wing, left wing, full of hate

R:  
We don't wanna fight  
Because you tell us to  
So watch your back when you attack us  
'Coz we might just turn on you.

Things get worse with every hour  
The future fades into the past  
All they want is total power  
Climbing on the backs of the working class.

R:

We don't wanna be part of no new religion  
We don't need a boot and a switchblade knife  
We don't wanna be part of a political dream  
We just wanna get on living our lives
