

Armageddon

CocoRosie

And then the lights came on
In the middle of the night
What I should do with my life
How I should spend my time
I'll be a stock broker and get me a wife
Have the diamonds cut
Have the diamonds

Let's all gather at Time Square
And lets all say a prayer
To Walter Disney and Mike Tyson
At Madison Square Garden

And the lights came on
In the middle of the night
What I should do with my life
How I should spend my time
I'll be a stock broker and get me a wife
Have the diamonds cut
Have the diamonds

And Jesus said they're a girl's best friend
And hell they'll last forever
And Jesus said now take her hand
And raise this harlot's bastard sun

And the lights came on
In the middle of the night
What I should do with my life
How I should spend my time
I'll be a stock broker and get me a wife
Have the diamonds cut
Have the diamonds

And afterwards we'll all go to hell
When the money's all spent
When the money's all gone
There'll be a place for us in Heaven's gate
Waiting for us on lay away

And then the lights came on
In the middle of the night
What I should do with my life
How I should spend my time
I'll be a stock broker and get me a wife
Have the diamonds cut
Have the diamonds

And oh what a pity the world's not white
And oh what a shame I don't have blue eyes
God must have been a color blind
If I made the world it would be all white

And oh what a pity the world's not white
And oh what a shame I don't have blue eyes
God must have been a color blind
If I made the world it would be all white
