

Get Back Home To You

Cody Johnson

I've got an aching in my bones
From 16 days out on the road and I'm almost through
Hmm I got to get back home to you

I ain't a bite since yesterday
There's an exit sign and a little cafe
But I ain't got time to lose
Oh I got to get back home to you

Big ole wheels keep rolling down the line
American steel don't let me down tonight
And I'll get out and push this rig if I've got too
And walk right through the soles of there ole boot
Just to get back home to you

I can almost see you angle face
It's like diesel in my veins
And it keeps me pushing on through
Hmm to get back home to you

Girl the telephones hard to hold on to
But baby you know I'm staying true
Cause I know what you're gonna do
Hmm when I get back home to you

Big ole wheels keep rolling down the line
American steel don't let me down tonight
And I'll get out and push this rig if I've got too
And walk right through the soles of there ole boot
Just to get back home to you
[x2]

I've got to get back home to you
