

Nobody To Blame

Cody Johnson

if i hadnt of stayed gone
you'd have never be alone
but then i wouldnt be on this road that i'm on
if i'd have chose not to sing
hell i could have done alotta things

but then this feeling inside wouldnt be the same
andi coulda been everything
that they say i shoulda been
i shoulda loved you
like our love would never end
i could hoped but i didnt
so this is the life i'm livin
six strings one drink
and nobody to blame but me

A voice from all the crouds pick me up
when i am down thats something
even when your not around
all the whiskey and late nights
lets you know that i was just something
that you had to lay down

i coulda been everything
that they say i coulda been
i shoulda loved you
like our love would never end
i coulda hoped but i didnt
so this is the life i'm livin
six strings one drink
and nobody to blame but me

ooh here tonight i see
with the spot light on me
i've got everything that i need
with six strings one drink
and one to blame but me

six strings one drink
and nobody to blame but me
