

She's My Woman

Cody Johnson

Doesn't matter if I broke down my love
When I'm falling down she's picking me back up
Yeah, she's my woman, yeah, she's my woman
When I'm down and out and I'm lacking my self esteem
She's always the one who's believing in me
I said, she's my woman, yeah, she's my woman

She's the one I can call when I'm feeling down
She's the kiss on my lips when no one else is around
She's a feeling like this ol' boy dog never be found
She's my woman

She's my map to heaven when hell's knocking at my door
She's my winds of change when I'm feeling just a little unsure
She's my woman, yeah, she's my woman
She's that ring on my finger when I'm having second thoughts
Cause I know love like ours no man has ever bought
She's my woman, that girl's my woman

She's the one I can call when I'm feeling down
She's the kiss on my lips when no one else is around
She's a feeling like this ol' boy dog could never be found
She's my woman
I said, she's my woman
