

Swamp

Cog

I don't listen at all to the government
I just say 'no, why do you hate?'
I don't listen at all to the government
The government has gotta go, oh yeah

I don't listen at all to the government
I just say 'no, why do you hate?'
I don't listen at all to the government
The government has gotta go

They're getting in the way of
(The smoke they're blowin, all this strain they're
Showin)
They're getting in the way of
(The smoke they're blowin, only our way)

I don't listen at all to the government
I just say 'no, why do you hate?'
I don't listen at all to the government
The government has gotta go

Getting in the way of... only our way
(The smoke they're blowin, all this strain they're
Showin)
They're getting in the way of
(The smoke they're blowin)
This time the government has gotta go

No doubt, they've sold out
But right now we can end the game they're playing

I don't listen at all to the government
I just say 'no, why do you hate?'
I don't listen at all to the government
The government has gotta go

No doubt, they've sold out
But right now we can end the game they're playing

They won't make it better
Now or never
Overcome
They won't make it better
Now or never
Overcome
They won't make it better
Now or never
Overcome, I

Diving, diving, diving...

On the edge, I dive, in the sunrise
Gonna be alright at the waterline

On the edge, I dive, in the sunrise
Gonna be alright at the waterline

On the edge, I dive, in the sunrise
Gonna be alright at the waterline

On the edge, I dive, in the sunrise
Gonna be alright at the waterline

At the waterline
At the waterline
At the waterline
At the waterline
At the waterline
