

# Only You

Colbie Caillat

I'm kinda obsessed with how you're obsessed  
With making me feel like nobody else  
'Cause nobody makes me feel like you do  
The look on your face whenever you taste  
The way that I taste, it's like you're amazed  
With every little thing that I do  
I love your loving, keep me coming back  
Whenever I want more  
I can't stop dreaming bout you dreaming  
I'd be coming back for more

Only you can keep me falling like a summer rain  
Get me so hot to cool me off again  
Only you can send me flying like a meteorite  
Blazing through the haze into the sky blue eyes  
Only you, only you  
Only you, only you

I really adore the way you adore the way that we dance  
Before on the floor like every night is Saturday night  
You take me to town, you're shaking me down  
I can't even tell there's no one around  
Candles our city lights  
You pick me up and you drink me up  
You take with no [?] aligned

Only you can keep me falling like a summer rain  
Get me so hot to cool me off again  
Only you can send me flying like a meteorite  
Blazing through the haze into the sky blue eyes  
Only you, only you  
Only you, only you  
Only you, only you  
Only you, only you

Can make me believe I'm the queen of your heart  
Shine like a diamond, and burn like a star  
Wherever I am, wherever you are  
I know that I'll always love only you, only you, only you  
Only you, only you, only you

Only you can keep me falling like a summer rain  
Get me so hot to cool me off again  
Only you can send me flying like a meteorite  
Blazing through the haze into the sky blue eyes  
Only you, only you  
Only you, only you

I'm kinda obsessed with how you're obsessed  
With making me feel like nobody else  
'Cause nobody makes me feel like you do
