Cold Toes on the Cold Floor

Cold War Kids

Hunger and the lights are off, honey Trying to find my head Don't recall lying down In this black bed

Cold toes on the cold floor (2x)

Feeling up the wall to find a light switch Like a mime, surprised What glows in the dark A zippers broken spine

Cold toes on the cold floor (4x)

I am not alone
All my doves have flown

It's a classic mix-up, baby
An honest mistake
A girl I used know, maybe
Another face on the street
She said to say hello to you soon, and
I awake from my dream state

Cold toes on the cold floor (2x)

I will take out the garbage I will squeeze your juice So glad to be making Scrambled eggs with you

Cold toes on the cold floor (4x)

I am not alone
All my doves have flown
