

# Life In Technicolor II

Coldplay

1. There's a wild wind blowing,  
Down the corner of my street  
Every night there the headlights are glowing  
Theres a cold war coming,  
On the radio I heard  
Baby it's a violent world
- R1: Oh love don't let me go  
Won't you take me where the streetlights glow  
I could hear it coming  
I could hear the sirens sound  
Now my feet won't touch the ground
2. Time came a- creepin'  
Oh and time's a loaded gun  
Every road is a ray of light  
It goes o-o-o -on  
Time only can lead you on  
Still it's such a beautiful night
- R2: Oh love don't let me go  
Won't you take me where the streetlights glow  
I could hear it coming  
Like a serenade of sound  
Now my feet won't touch the ground
3. Gravity re lease me,  
And dont ever hold me down  
Now my feet won't touch the ground
