

# Breathe

coldrain

You say you know best  
Well, it's easier said than done (Said than done)  
When you're so obsessed  
With being broken and undone

How could you ever know?  
What it means to live and grow  
How could you ever know?  
If you never let go  
Let go and move on

Life was made for you, with vices and virtues  
Don't go down with your mistakes  
Life was made for you, with vices and virtues  
Don't go waste away and break  
Just breathe in, breathe out  
Breathe in, breathe out  
You'll make it right someday  
Just breathe in, breathe out  
Don't give up today

Hide in your nest  
Keeping us in the dark (In the dark)  
While you're obsessed  
Scars never left a mark

How could you ever know?  
What it means to live and grow  
How could you ever know?  
If you never let go  
Let go and move on

Life was made for you, with vices and virtues  
Don't go down with your mistakes  
Life was made for you, with vices and virtues  
Don't go waste away and break  
Just breathe in, breathe out  
Breathe in, breathe out  
You'll make it right someday  
Just breathe in, breathe out  
Don't give up today

Know that you're not alone  
In the struggle to be strong  
We're all dying to live just the best that we can when we fall  
And no, you'll never be alone  
In the end there will be hope  
From the sorrow, the shame, the guilt and dismay, you will rise  
Rise and live again  
Life was made for you

Life was made for you, with vices and virtues  
Don't go down with your mistakes  
Life was made for you, with vices and virtues  
Don't go waste away and break  
Just breathe in, breathe out  
Breathe in, breathe out

You'll make it right someday  
Just breathe in, breathe out  
Don't give up today  
Don't give up today  
Don't give up today
