

I've given all I have each day and night
So until death I swear I'll stand and fight
This is me at the edge

If you believe
The sky is the limit so hold on
Because we're going higher and higher
The sky is the limit so don't look down
(No) don't you dare look down

It's always easier to not resist
Just follow those who play it safe
Give up give in or rise against
Make up your mind now
Will you sink or swim
Sink or swim
Choose your fate

If you believe
The sky is the limit so hold on
Because we're going higher and higher
The sky is the limit so don't look down
(No) don't you dare look down

(No) this is not the end
(Know) we can still evolve

I think its time we find a way
To leave the fear behind
Raise our voice high and loud
United here we stand singing
(Know) we can still evolve
(Know) we can still evolve

The sky is the limit so hold on
Because we're going
Higher and higher
The sky is the limit
So don't look down
Anymore

If you believe
The sky is the limit so hold on
Because we're going higher and higher
The sky is the limit so don't look down
(No) don't you dare look down

(No) this is not the end
(Know) we can still evolve
