

# House Of Cards

coldrain

She came to me suddenly  
Like an angel out of nowhere  
I don't believe in miracles  
But I can't deny the possibility

It feels too right to go on  
I don't trust life anymore  
Like a house of cards  
It only takes one blow  
For everything to go wrong

She took away the pain in me  
Like an antidote to my disease  
I swear when she looks at me  
There's nowhere that I'd rather be than  
Right here inside her eyes  
I can breath finally

It feels too right to go on  
I don't trust life anymore  
Like a house of cards  
It only takes one blow  
For everything to go wrong

It feels too right to go on  
I don't trust life anymore  
Like a house of cards  
It only takes one blow  
For everything to go wrong
