

# Painting

coldrain

Some say we're wasting our time  
But if you ask me (We're just getting started)  
We're just getting started  
It's not what we have now  
It's whatever we will find (It's just the beginning)  
It's just the beginning

Every breath we take  
Everything we taste  
We all grasp to add some color on our canvases  
When some day we die  
We will stay in...  
Someone's memory

Some have forgotten about color  
But I'll tell them (Fuck black & white)  
Fuck black & white  
It's not what we are now but how we will be remembered  
Now & forever

Every breath we take  
Everything we taste  
We all grasp to add some color on our canvases  
When some day we die  
We will stay in...  
Someone's memory forever as a masterpiece

We've got to move on

Every breath we take  
Everything we taste  
We all grasp to add some color on our canvases  
When some day we die  
We will stay in...  
Someone's memory forever as a masterpiece forever

On the day we die (3x)... We are complete
