

R.I.P.

coldrain

Take a bow and rest in piece
We're all sick of your disease
Nothing here will be the same
The damage has been done
Well I hope you had your fun

Leading with a crooked crown
A world that's spinning upside down
You won't think it's funny when you're falling
You will never be "the one"
It's sad to say some things never change
You will always be "that one"
We can't forget the biggest of mistakes

Take a bow and rest in piece
We're all sick of your disease
Nothing here will be the same
The damage has been done
Well I hope you had your fun
'Cause the game is over

Standing with a loaded gun
You probably think you own the sun
Will you think it's funny when we're dying
You will never be "the one"
It's sad to say some things never change
You will always be "that one"
We can't forget the biggest of mistakes

Take a bow and rest in piece
We're all sick of your disease
Nothing here will be the same
The damage has been done
Well I hope you had your fun
'Cause the game is over

What made you think it was alright
Taking the world on out of spite
You're just a time bomb ticking

Take a bow and rest in piece
We're all sick of your disease
Nothing here will be the same
The damage has been done
Well I hope you had your fun

Take a bow and rest in piece
We're all sick of your disease
Nothing here will be the same
The damage has been done
Well I hope you had your fun

Take a bow and rest in piece
We're all sick of your disease
Nothing here will be the same
The damage has been done
Well I hope you had your fun

Rest in piece
'Cause the Game is over
