

# The Side Effects

coldrain

One step forward  
Two steps backwards  
Saving culture  
Killing art

You want borders, we just want a bridge  
This is modern warfare, freedom in a ditch  
Will you ever bother listening?

Made in the land of the rising sun  
Decade in the rain, proving who we are  
Still under fire for the things we love  
Hey, just listen

We are the side effects  
A product of love, a product of hate  
We are the side effects  
A product of heart, but make no mistake  
No one asked for your love  
No one asked for your hate  
So we ask from the heart  
Before it's too late, just let us be us

One step forward  
Two steps backwards  
Saving culture  
Killing art

You want order, we just want to live  
Endless civil warfare  
Something's got to give  
Can we start this over rational?

Made in the land of the rising sun  
Decade in the rain, proving who we are  
Still under fire for the things we love  
Hey, just listen

We are the side effects  
A product of love, a product of hate  
We are the side effects  
A product of heart, but make no mistake  
No one asked for your love  
No one asked for your hate  
So we ask from the heart  
Before it's too late, just let us be us

Made in the land of the rising sun  
Decade in the rain, proving who we are  
Still under fire for the things we love  
But it's time you listen

We are the side effects  
A product of love, a product of hate  
We are the side effects  
A product of heart, but make no mistake  
No one asked for your love
