

# Undertow

coldrain

with the waves up over my head  
watch me swim until I'm dead  
if I keep the shore in my sight

I can hold on for my life

undertow  
you can't take over my soul anymore

you push me back and pull me down  
I won't stay long I won't let me Drown  
every part of me pulled to the bottom end  
stuck in the undertow

when the sharks get under my skin  
sinking teeth into my sins  
I let the fear take over the art  
but I will do this from the heart

undertow  
you can't take over my soul anymore

you push me back and pull me down  
I won't stay long I won't let me Drown  
every part of me pulled to the bottom end  
stuck in the undertow

you push me down and pull me back  
I won't belong to pieces I lack  
every part of me knows I don't want to be  
stuck in the undertow

I'm taking over my soul  
leaving regret on the ocean bed  
I'm taking over control  
I need to know this is not the end  
I'm taking over

you push me back und pull me down  
I won't belong

you push me back and pull me down  
I won't stay long I won't let me Drown  
every part of me pulled to the bottom end  
stuck in the undertow

you push me down and pull me back  
I won't belong to pieces I lack  
every part of me knows I don't want to be  
stuck in the undertow
