

Single Saturday Night

Cole Swindell

I was out taking shots
Throwing down at the spot
Three sheets, just me and the guys
Every single Saturday night
I was killing time, crushing cans
Trying not to catch a tan
'Cause I was under them neon lights
Every single Saturday night, yeah

Everybody knew they could find me there
And right out of the blue, right out of nowhere
Out of nowhere

Sitting over in the corner, baby, I saw
Pretty red lips working on a white claw
Shaking to a little, shook me all night long
And I thought, man, what a beautiful sight
Ain't a morning you don't wake up in my shirt now
Even holding hands walking out of church now
Who'd of thought, baby, looking back that
That would be my last single Saturday night, yeah
My last single Saturday night

And now when I'm out, having a drink or two
If they see me, well, they see you
'Cause, girl, I've got you by my side
Every single Saturday night, yeah
Every now and then the boys tell me they miss me
Well, but they all get it 'cause they were right there with me
Yeah, with me, when

Sitting over in the corner, baby, I saw
Pretty red lips working on a white claw
Shaking to a little, shook me all night long
And I thought, man, what a beautiful sight
Ain't a morning you don't wake up in my shirt now
Even holding hands walking out of church now
Who'd of thought, baby, looking back that
That would be my last single Saturday night

The last time that I'd buy a drink for a girl I'd never met before
I wasn't looking for love when I walked through the door
But damn if I didn't find what I wasn't even looking for

Sitting over in the corner, baby, I saw
Pretty red lips working on a white claw
Shaking to a little, shook me all night long
And I thought, damn, what a beautiful sight
Ain't a morning you don't wake up in my shirt now
Look at us even picking out a church now
Who'd of thought, baby, looking back that
That would be my last single Saturday night, yeah
My last single Saturday night
