

Pure Love

Colin Hay

The people allow this last great congregation
I tip my hat to the ones who went before
My secret voice has the inside information
To let the freedom bell ring once and for all

They were singing:
I got to fill my heart with pure love
(Pure love)
I got to fill my heart with pure love

Around here it's the same old situation
Fire and wind and the river's running red
Can't wash away the pain of a thousand generations
Or the angel child awakened from the dead

And we're singing:
You got to fill your heart with pure love
You got to fill your heart
You got to fill your heart with pure love
Pure love

Listen to the band sanctify

We got to fill our hearts with pure love
We got to fill our hearts with pure love
We got to fill our hearts with pure love
We got to fill our hearts with pure love
We got to fill our hearts with pure love
