

Going Up to the Country

Colin James

I'm gonna move up to the country baby
I'm gonna paint my mailbox blue
I'm gonna move up to the country baby
I'm gonna paint my mailbox blue

Yeah I'm gonna put some flowers on it honey
Plant some trailin' vines or two

Well, I'm leavin' this city woman
Well, the smog has got me down yeah
Well, I'm leavin' this city woman
I'm afraid the smog has got me down yeah
Well I'll move into the canyon darling
Where there's nobody else around

Come here darling
Mamma let me take you by your hand
Well, come here darling
Let me take you by your hand
Well, you be my woman
Yeah I'll be your city-boy, country man

Move up to the country baby
I'm gonna paint, gonna paint my mailbox blue
I'm gonna move up to the country baby
I'm gonna paint my mailbox blue
Put some flowers on it honey
Plant some trailin' vines or two

Alright
Move up to the country darling
Move up to the country baby
Paint my mailbox blue
