

# Shifting

## Collide

Been down and underneath  
Ive been looking still looking  
Through, through me  
been down and underneath  
i've been looking still looking  
through...through me

she is shifting in  
logic was lost  
concept within

i think and i am  
what's your purpose  
thinking again

been calling out to me  
i've been looking  
through the mirror  
been calling out to me  
i've been wondering through me

she is shifting in  
logic was lost  
concept within

i think and i am  
what's your purpose  
thinking again

try to connect and  
thinking i am  
turning directly moving on  
trying to move closer  
trying to move on  
trying to get there moving far

loosing focus

she is shifting in  
logic was lost  
concept within

i think and i am  
what's your purpose  
thinking again

try to connect and thinking i am  
turning directly moving on  
trying to get close, try to move on  
trying to get there moving far
