

Was It Me

Colony House

Let's make it plain and simple
It's just not working out
We'd be much happier if
We focused on ourselves
Let's forget all about it
Pretend we'll be okay
It's time to turn this page and
Both go our separate ways

Maybe we can figure something out
With some time and with a little help

Was it me
I don't remember everything that I said
Was it me
You must be dreaming or inside of your head
Was it me
I guess I'm sorry for the way that you feel tonight
Is it me
That's wondering if we will survive
Was it me
Was it me

If this won't fix our problem
At least we know we tried
Even the pros have told us
We need to cut these ties
And I'm a little bit confused about it
Yeah I'm still looking for the words to say
When I look in the mirror
I think I see someone else there to blame

Maybe we can figure something out
I need some time, I need a little help

Was it me
I don't remember everything that I said
Was it me
You must be dreaming or inside of your head
Was it me
I guess I'm sorry for the way that you feel tonight
Is it me
That's wondering if we will survive
Was it me
Was it me

They say, "that's normal" but I know the truth yeah
They say, "that's normal" but I know the truth

Maybe we can figure something out
With some time or with a little help

I can't believe I said the things that I said
Was it me
I must be dreaming and I'm losing my head
Was it me
I'm really sorry that I ever believed the lies

Is it me
That's hoping that we will survive
Was it me
Was it me oh yeah
Was it me
