

# Violence

Combat 84

There's rucking in the street and there's blood on your hands

Your'e boozing in the pub and going round in gangs

Cruising round in motors trying to get someone

Kick 'em stab 'em club 'em until the job is done

[Chorus]

There's violence in our town

There's violence all around

There's violence in your town

There's violence all around, around, around

People never learn however much you try

There's violence in your blood so someone's got to die

Cruising round in motors trying to get someone

Kick 'em stab 'em club 'em until the job is done

[Chorus]

Violence (3x)

[Chorus]

Violence (3x)
