

Gimme My Mule

Commodores

Gimme my mule please
Gimme my mule please
The rapid pace, and hassles of the city
Should never blow your mind
Cuz there are those, we're not so very many
Who love a country town
Where you can walk, out in the pastures plenty
And look right up to the sky
If you decide, to do same skinny dipping
No one will ask you why

Gimme my mule please
Gimme my mule please
Gimme my mule please
Gimme my mule please

We've got to eat, but food costs so much honey
With prices high in the sky
We came by me, we might as well eat the money
And brother that's no lie
This kind of stuff, has cracked the minds of many
And there's no wonder why
City lights, are flashing to the vision
Don't make a grown man cry

Gimme my mule please (feels so good)
In the morning
Gimme my mule please (feels so good)
In the evening

Gimme my mule please
Gimme some country
Gimme some country
Gimme my mule please
Gimme my mule please
Gimme my mule please
Gimme my mule please
Gimme my mule please
Gimme my mule please
