

**T.u.i.**

## **Common Enemy**

Can you hear the noise  
It travels through my spin  
The impulse hit the spot  
We'll give it one last shot  
What cha gonna do,  
When you got no where to go  
Thrash under the influence  
Fall and smack the curb  
The gravel ripped my flesh  
But I can't feel a thing  
So lets try again
