Wanna feel the vibe wanna feel the vi ibe!
Uhhh.. wanna what? Yeah
Wanna what? Uhh yeah (come on)
Every bod' c'mon uhh
Yo yo.. (all night long)

Durin divine hours I use mind power to refine
Flour/flower girls and make em feel like black pearls
Get they minds off acryllic nails and the rap world
It's a lot you can find in the lost black girl
Made signs built in lodges, we be in garages
Discussin who we boned and who God is
Pro-black like Craig Hodges with my dashikis in the cleaners
I kick it for the Chevy ridin head to backstreet leaners

Alllllll.. (uhh) niiiiight.. (yea yea, what?) Alllllll.. niiiiight.. (whatch

Check it, check it
I was born underwater with three dollars and a cocktail
Tryin to make the Garden of Eden, out of Auckdale and Rockwell
Lock'd in this Grid like a Tupac tale
While her-on rock smells make the cops tail
My third eye is my rail, on this Illa-thought
With afrocentric stamps I'm mailin thoughts
To my Gods held in court
I dwell where rebellion's taught, and emotions seldom walk
I try to Walk Like an Egyptian, with Hieroglyphics spelled in chalk
I guess the hustlin is the unspoken Gospel
Love that I'm an apostle, feel the holy spirit of Chicago
E Bottom, here's the bottle
I think I, need a cup of a tea, because I'm novel
(come on bay-bayyy) Bust it

A portrait of the Artist, formerly known as Sense
The brain-wash, with my vocal tones I rinses
Opportunity and the beat knocks
Women, give me rhythm like beatbox, but it's the year
Of completion, I want a Queen to complete Rash'
Who's flavored from stacks, to Reeboks

Send blessings to the family of Ice Mike
Shit like that, don't help me write right, but I got site/sight
Like a destruction worker, when it's time to build
Get off like Sam Jack' and it's +Time to Kill+
In perseverance I'ma find a meal, and provoke
My Gramps used to trick off big papers at the Riverboat
It go..

Check it
I walk downtown to tempos and never lose the beat
Some people got ignorance confused with bein street
On the, street of desire my body and soul meet
Arguin over thick broads and meals with no meat
Had the cold feet for a second
Mega-niggaz in my box throwin suggestions
Had me checkin myself and double checkin, I popped the +Resurrection+
In the mirror I only heard my reflection
Let me hold mics, while you hold dicks and CD collections
And at MusicLand and Coop's, we can make connections
I meditate with confidence, to not chomp on cents
Outspoken like 30's but yet I guard my lips
Writin niggaz with stripes, I hold posture with
Poppin shit to fat broads, wearin os-trich
Givin em voicemail, tracks are like County
To them I voice-jail/gel, if you believe in Heaven
Why is the choice Hell? Why is this choice Hell?
Why is this choice Hell?
