

# Can't Come Back

Conchita Wurst

I don't know if  
All of me is on the same side  
But it seems to be gone too far  
I hold my breath I pause  
I rethink and dive into  
These eyes of yours somehow

I let my guards down  
When with you  
It seems you can call it  
And I do

All of me is yours  
It's borderline me  
It is more than time for me  
To make you leave

And I can't come back...

It's all or none with you

Oh, boy  
I'm gasping  
Before we even set in  
I've been on  
And you've been off  
Most times  
We tread water  
And you lean back

Oh, I can't come back...

My head is in the clouds  
While I feel  
My body's crashed down  
Onto the ground  
What is it with you  
I ban reason  
And fall  
For your love  
While falling apart  
Oh my, oh my, my, my

I can't come back...
