

Malebu

Conchita Wurst

There's no place like this
Where kisses taste like sugar
Cool as the ocean breeze
I'm floating, floating on air

Every breath
Takes me back
Never forget
The times we've had

A summer night in Malebu
Feels like falling out of time
I feel love, only love for you
Under the cotton candy sky

A summer night in Malebu
Ocean water glitter shine
My wildest dreams are coming true
Together, crossing every line

Straight to the overlook
To make out, what a bumpy ride
Steamy windows, blurry view
The bets are off with you

Every breath (forever gonna)
Takes me back (never ever)
Will forget (dreaming of)
The times we've had

A summer night in Malebu
Feels like falling out of time
I feel love, only love for you
Under the cotton candy sky

A summer night in Malebu
Ocean water glitter shine
My wildest dreams are coming true
Together, crossing every line
