

See Me Now

Conchita Wurst

So here we are in the cold rain now
You can see me reach, I can see you drown
Quite absurd my mind already travelled far
Farther than your eyes, farther than your heart

'Cause you will say hold and I will say leap
I was born to show, you were born to keep
You get me now? get me now?

But here we are in the cold rain now
Side by side alone stranded by the tide

See me now, see me now
See me off and let, see me off and let me go now
See me now, see me now now now
See me off and I say goodbye

Hand in hand I can walk, I can live, I can hold my grounds
But where is me?
Built on sand we're supposed to be pure
But we changed our course long ago, course long ago
Clinging to the colours that start to fade away
Secrets way too messy, no chance to compensate
Na na na na, let's set fire

See me now, see me now
See me off and let, see me off and let me go now
See me now, see me now now now
See me off and I say goodbye

Nothing to be gained now and nothing can be changed
I say you don't get me, get me, you say I play
Now what, now what? how we got here no one cares
I will make a turn now, eyes closed mind stern

See me now, see me now
See me off and let, see me off and let me go now
See me now, see me now now now
See me off and I say goodbye
