

Somebody To Love

Conchita Wurst

Too late for the party
But that don't mean we can't play
Can you talk to me naughty
Can you love my heartache away

Tell me what you're thinking of
Tell me what I need to know
It's evident and I can't pretend, no

I tell myself I'm living
But really I just long
For somebody to love
For somebody to love

Just give in to the feeling
That we could have it all
With somebody to love
Yeah somebody to love

Read me like a story
Can you be my beautiful liar
In the pain there is glory
We're in the line of fire

You can have that part of me
Keep it under lock and key
It's evident and I can't pretend, no

I tell myself I'm living
But really I just long
For somebody to love
For somebody to love

Just give in to the feeling
That we could have it all
With somebody to love

Oh I just wanna love somebody
Oh I just wanna love somebody now
Oh I just wanna love somebody
Oh I just wanna love somebody now

We can turn into starlight
We can turn to gold
Making love till the morning
Like we'll never get old

We can turn into starlight
We can turn to gold
Making love till the morning
Like we'll never get old

I tell myself I'm living
Lut really I just long
For somebody to love
For somebody to love

Just give in to the feeling
That we could have it all
With somebody to love

Love somebody, love somebody
Oh I just wanna love somebody now
Oh I just wanna love somebody
Oh I just wanna love somebody now
