

# You Are Unstoppable

Conchita Wurst

You don't know me, I don't know you  
That's what we tell ourself inside of our little heads  
We could never love again  
You don't know me, I don't know you  
That's what it's gonna be if you let yourself get in the way  
Of what the child inside you says

And if you had another bad romance  
Give it another go  
It could be beautiful  
Wouldn't she would like to know?

Sometimes you just gotta leap - yeah  
Jump out and just feel the breeze - yeah  
You're stronger than you believe you are  
You are!  
Sometimes it's just gonna hurt - yeah  
But you gonna live and learn - yeah  
You're stronger than you believe you are  
You are unstoppable!

So take a breath and just dive in  
Keep on climbing  
Scars are a part of you  
We can learn to understand  
Carry your heart in your hand

And you will have another grand romance  
Like it's do or die  
Never giving in  
Always let your heart win

Sometimes you just gotta leap - yeah  
Jump out and just feel the breeze - yeah  
You're stronger than you believe you are  
You are!  
Sometimes it's just gonna hurt - yeah  
But you gonna live and learn - yeah  
You're stronger than you believe you are  
You are unstoppable!

You don't know me, I don't know you  
Yeah we just wanna be loved  
We just have to be loved  
We're not getting enough

Sometimes you just gotta leap - yeah  
Jump out and just feel the breeze - yeah  
You're stronger than you believe you are  
You are!  
Sometimes it's just gonna hurt - yeah  
But you gonna live and learn - yeah  
You're stronger than you believe you are  
You are unstoppable!  
You are, you are unstoppable!
