

We Will Never Let You Down

Condemned 84

Stand up proud lead from the front
Don't turn your back don't ever run
Eyes face front towards the pack
All systems go ready to attack
Come to where the battle calls
Fight until the last man falls
Stand up -Stand proud
We will stand and we will fight
The way to prove our country's might
Side by side, man to man
Fighting for our country we'll show that we can
Come to where the battle calls
Fight until the last man falls
Stand up -Stand proud

We will never let you down
we will always stand our ground
we will fight until the end
if we fall we'll rise again
We will follow you far and wide
because you are the greatest side
loyal from the start and to the end
our support for you we'll always send
Come to where the battle calls

Fight until the last man falls
Stand up -Stand proud
