

If I Ever Cross That Line

Confederate Railroad

I've got a gold ring on my finger
I've got a stiff drink in my hand
Temptations sitting beside me
You know I've always been a strong man
But the way that you're looking at me
I believe if I want too again

But if I ever cross that line
If I ever decide to change my mind
You'd be the reason
I'll leave my whole world behind
If I ever cross that line

You know I've never done
What i'm I never had a reason before
How long can a man keep on holding on

Something not fair in hope
And maybe just talking
And maybe, will walk out that door

If I ever cross that line
If I ever decide to change my mind
You'd be the reason
I'll leave my whole world behind
If I ever, If I ever cross that line

And way that you're looking at me
I know if I want you again

If I ever cross that line
You'd be the reason
I'll leave my whole world behind with her
If I ever cross that line
