Manic Star

Conjure One

One day, yes, one day less to live I want you to be my sedative Sometimes when I drive my car I feel trapped like a bee inside a jar

Grains of sand is all we are Crawling on our manic star One tiny person in one shiny car Spinning on our manic star

Time doesn't stop for anyone
It doesn't matter what you've done
I want to lose myself in you
Are you afraid of dying too?

Grains of sand is all we are Crawling on our manic star One tiny person in one shiny car Calling from our manic star

Let's love like there is no tomorrow Shelter each other from the pain and sorrow

Manic star

Grains of sand is all we are Crawling on our manic star One tiny person in one shiny car

Don't know how I got this scar Crawling on our manic star I'm all right, at least so far Hanging on our manic star Spinning on our manic star Calling from our manic star

Manic star Manic star
