

For the Night

Conor Maynard

Open your mind 'til I'm deep inside
Let me get so lost in you
Nothing but strangers both you and I
But no one can judge what we do

Maybe we'll pretend
And say we'll meet again someday but
We know it's the end

So act like you love me
Love me
Even if it's just tonight
Fuck like you love me
Love me
Even if it's just a lie
Yeah I will be there for you
I will care for you
I will die for you
For the night
Yeah I will be there for you
I will care for you
I will love you but just for the night

Feels like we met in another life
Cuz I know every part of you
Bringing our secrets into the light
Even if we know the truth

Baby let's pretend
And say we'll meet again someday but
We know it's the end

So act like you love me
Love me
Even if it's just tonight
Fuck like you love me
Love me
Even if it's just a lie
Yeah I will be there for you
I will care for you
I will die for you
For the night
Yeah I will be there for you
I will care for you
I will love you but just for the night

Maybe we'll pretend
And say we'll meet again someday but
We know it's the end
We know
Maybe we'll pretend
And say we'll meet again someday but
We know it's the end

So act like you love me
Love me
Even if it's just tonight

Fuck like you love me
Love me
Even if it's just a lie
Yeah I will be there for you
I will care for you
I will die for you
For the night
Yeah I will be there for you
I will care for you
I will love you but just for the night
