

# Vegas Girl

Conor Maynard

That there, let me break it off  
All the pressure that you got, let me take it off  
I swear, we're gonna make it hot  
Put your hands in the air, don't stop  
I'll knock you down like you're Keri  
Forget your name like Rihanna  
You can run the world, Queen B  
Be unthinkable, Alicia  
We can go so far if she let go  
And I ain't gonna leave without her

This is for the girl that can get down low  
The whole club wanna see you go  
Ey, shake, shake like you're famous, girl  
Head back, lay it down like a Vegas girl  
Bass coming down so hard  
That little dress breaking every heart  
Ey, shake, shake like you're famous, girl  
Head back, lay it down like a Vegas girl

Like a Vegas girl

Roll the dice, I've got your number  
Hit the jackpot underneath the covers  
Intoxicated, you're like a drug, girl  
Grab a glass, girl rain tequila  
Tequila, tequila, tequila

I'll knock you down like you're Keri  
Forget your name like Rihanna  
You can run the world, Queen B  
Be unthinkable, Alicia  
We can go so far if she let go  
And I ain't gonna leave without her

This is for the girl that can get down low  
The whole club wanna see you go  
Ey, shake, shake like you're famous, girl  
Head back, lay it down like a Vegas girl  
Bass coming down so hard  
That little dress breaking every heart  
Ey, shake, shake like you're famous, girl  
Head back, lay it down like a Vegas girl

Like a Vegas girl

It feels so right every night  
Like you're in Vegas, girl  
(Like a Vegas girl) in Vegas, girl  
This is for the girl that can get down low  
The whole club wanna see you go  
Ey, shake, shake like you're famous, girl  
Head back, lay it down like a Vegas girl  
Bass coming down so hard  
That little dress breaking every heart  
Ey, shake, shake like you're famous, girl  
Head back, lay it down like a Vegas girl
