

Oh, Sweetest Heart

Conor Oberst

The days seem long and dark when we're apart
I never know exactly where to start or stop
But I know exactly where to start and stop
And nothing is embarrassing, nothing that you do
A heart that's made of Kara-sine, it burns only for you
I guess I finally know cause when I saw you at the show
I realized I had loved you all this time

The nights so dark at night and I can't know why
And I finally know cause when I saw you at the show
I realized that I loved you all this time
And all I really need is to have you close to me
For you to tell me that you love me this much too
This much too, this much too,
All you need to say is that you'll never go away
You'll stay in my eyes and never go
