

Taste Of Life

Conquest

Broken, withered
Falling deeper

Never used to hear your mind
Always floating downstream of life
But river's dry

Like the puppet in the arms
Of invisible force you beg for
Mercy

Look back!
- Life is never the same
Changing by the hidden laws and
Future will bring new taste to live
Your life
And you build it with your dreams

Holding weakness
Mental sickness

Blinding fear and silent scream
You've been always running out of real
With misery

But the answers are around
You have never tried to find the way
To know!
