

# Warbeast

## Conquest

Menace is near bringing the fear  
Baptism of fire begins  
Byzantine sword is put to our throat  
No way to take their faith

Start out the holy war  
Die, save your soul

Now the War beast comes  
And we'll never turn around  
Gods will lead our rows right where the victory grows  
Now the War beast comes  
And we'll never turn around  
We won't fall apart shielded by justice of god  
Forever just War beast

Mighty Perun, we are your sons  
We are applying to you  
Give us your strength for bloody revenge  
Our purpose is our truth

Cry out the battle call  
Go free your soul

Start out the holy war  
Go save your soul

[CHORUS]
