When Finally Set Free

Copeland

Feel the pain teaching us how much more we can take Reminding us how far we've come Let the pain burn away from our hearts We have time to start all over again

Feel the pain teaching us how much more we can take Reminding us how far we've come Let the pain burn away from our hearts We have time to start all over again

Feel the pain teaching us how much more we can take Reminding us how far we've come Let the pain burn away from our heart We have time to start all over again

Well if you would shine your love down here oh Make our hearts as perfect as new Oh if you would shine your love down here oh

I promise I'll reflect it right back at you Oh I promise I'll reflect it right back at you Oh I promise we'll reflect it right back at you
