

# Beat and Shake

Corona

I remember back in the days  
I was walking by your side  
Then I looked into your eyes  
I saw the end of me

Deep in my heart I felt lost and crazy  
You were my world, you fulfilled my soul  
Straight from my heart, I won't let you fool me  
You were my life, now you've lost control

Beat and shake and take me now  
Only the music can take my heart  
Beat and shake and take me now  
Take me forever, take me forever

I remember back of my mind  
I was only loving you  
But you were on your planet  
To paint the end of us

Deep in my heart I felt lost and crazy  
You were my world, you fulfilled my soul  
Straight from my heart, I won't let you fool me  
You were my life, now you've lost control

I wish I could say to you  
Your love is all I wanted  
But now I can't feel the same  
So let the music take my soul  
Beat and shake
