

# Angel Of Death

Count Raven

So sorry, it got out of hand  
Sometimes it happens, you understand  
The prisoners broke free, inside of them was our experiment  
Like LSD to go public it was never meant  
Now we must immediately close the file  
All accusations, the usual way, we must deny  
The shadow minds, gathered around the Pentagon  
They always fight, a war, on our planet grand

Angel of death has come this way and to stay  
Using his forces, and its resources, to spread the decay

The knowledge of the facts, are kept in the dark  
A disease you can't see, still it is in your body and heart  
Panic buttons are pushed around the world  
There's no solution, still they pretend like they never heard  
There is no safe sex and condoms won't save you  
Tell me brothers & sisters, what are you going to do  
Now the world is entering a sad state  
We see no difference between true love and hate

Angel of death has come this way and to stay  
Using his forces, and its resources, to spread the decay

Children of love arise  
Now's the time to use all understanding  
Children of God arise  
Now you've got to move faster than lightning

To help these people out, all minds are set  
We pay no attention to those who haven't caught it yet  
This is what really makes me ill  
To prevent it to go further, it seems to be no will  
There's only one way to go right now  
You don't like it but listen anyhow  
Give those people a country, help them build it well  
Work this out or we will face a global hell

Angel of death has come this way and to stay  
Using his forces and its resources, to spread the decay

Are you ready for the signs of the time?
