

# Until Death Do Us Part

Count Raven

All the sorrows mine  
Spitting on all mankind  
What is this thing called love  
A disgusting thing we all know

You made love to another  
That night I cried  
In lust you cheated me  
That night I died  
You say you're sorry  
That you love only me  
But that night when you did it  
You weren't thinking of me  
That night I died

Been dead for 15 years  
Nursing my hate and tears  
I'm sorry I didn't know  
But my hate is always slow

One side of me loves you and keeps on going on  
The other side says no way, this is only wrong  
I cannot live in this uncertainty  
Love & hate that struggles over destiny  
That night I died  
That night I cried

I'm living in unharmony  
Sitting & watching my TV  
Oh God!

They say unfaithfulness doesn't mean a thing  
How come that my hate keeps on growing?  
Listen!  
As old as creation, this thing was sent  
I'm the history, past present  
Listen! Past present

Only death will set me free  
Living is a mad reality  
I'm blind and I can see  
Please end this misery

This eternal prison I feel I've done my time  
I want to get out now and make you all mine  
Fear that I will one day end the beating of your heart  
How could you forget, "Til death do us part"  
One night you're going to die  
And I will cry

Oh, lord!
