

# Delight (Something New Under The Sun)

Court Yard Hounds

Baby can't you see  
You don't have to try so hard with me  
And baby can't you see  
You don't have to talk so loud to me

I'll make some time when you're around  
Just come on by  
Just come on by  
Take a chance on me

'Cause you know and  
I know we're on our way

To something new under the sun  
Something new under the sun  
Something new under the sun  
Something new under the sun

Baby can't you see  
You don't have to use that line on me  
And baby can't you see  
You won't ever waste your time on me

'Cause I'll ease your mind when you're down  
Just come on by  
Just come on by  
Take a chance on me

'Cause you know and  
I know we're on our way

To something new under the sun  
Something new under the sun  
Something new under the sun  
Something new under the sun

To something new under the sun  
Something new under the sun  
Something new under the sun  
Something new under the sun

When I look to the sky  
And the spark from your eyes lights up the night  
My heart is on fire  
As our two universes collide  
Yeah, we have arrived  
Animation, we come to life  
Celebration of something so right  
The creation in perfect time  
Of something new under the sun
