

In The Mouth

Cows

One day my shrink told me to let it all out He got my oral fixation in the mouth

My teacher caught me signing my trout I ended up putting words in her mouth

Sick of that boss man, he had to go down He got what's coming in the mouth

My girl likes to travel, she wants to go south From the head waters down to the mouth

She made me see red like I was Mao Tse-tung When I got the red menace in my mouth

That God damned landlord, thrusting me out He got my notice in mouth

You kept on babbling all over town 'til you got the gag order in the mouth
