

## Mine

## Cows

If you can lay eyes on it, it's mine If you can walk upon it, it's mine If you can come in here and put your hands on something, remember If there's something here to swallow, it's mine If there's something 'round to fallow, it's mine If you can hold it up and put it in your pocket Remember, it's mine

If there's something here you can blow up, it's mine If something here does make it go up, it's mine If you wanna come 'round here and help yourself to something, remember if you can latch onto it, it's mine If you can eat or screw it, it's mine If you 're some commie scum who wants to share it all Remember, it's mine

If there's something here appealing, it's mine If there's something here worth stealing, it's mine If you want to walk in here and put your hands on something, remember If you can lay eyes on it, it's mine If you can walk upon it, it's mine If it's got continents and clouds and lots of water Remember, it's mine
