

Being Alive And Living

Craig Morgan

(Wooooooooo)

Come on boys!

I ain't a guy to just kick back

And watch bikes race around the track

I'm wide knuckle to handlebars with both my hands

No I ain't one to just stand around

While a parachute falls to the ground

I gotta be hangin' underneath it when it lands

I'm not a "wonder what it feels like" kinda man

I wanna ski the deepest Colorado snow

Feel the heat off a live volcano

Hangin off the edge is my kind of chillin'

I wanna run with the bulls through the streets of Spain

Dance with my baby in the thunderin rain

Do everything I can with the days I'm given

There's a difference between being alive and livin'

I've got this daredevil rebel gene

Pushes me a little past extreme

I've felt it ever since I was a little kid

I ain't gunna get to my rocking chair

Scratching a head full of silver hair

And look back at a bunch of things I wished I did

I'm gunna meet my maker with an empty bucket list

I wanna ski the deepest Colorado snow

Feel the heat off a live volcano

Hangin off the edge is my kind of chillin'

I wanna run with the bulls through the streets of Spain

Dance with my baby in the thunderin rain

Do everything I can with the days I'm given

There's a difference between being alive and livin'

I wanna ski the deepest Colorado snow

Feel the heat off a live volcano

Hangin off the edge is my kind of chillin'

I wanna run with the bulls through the streets of Spain

Dance with my baby in the thunderin rain

Do everything I can with the days I'm given

There's a difference between being alive and livin'

Oh Oh, I'm livin
