

Country Side of Heaven

Craig Morgan

On the country side of heaven
You walk along the emerald brooks
Where the fish are always biting
You don't even need a hook no
Horses run across the ember
Ain't no fences way up there
Theres the stars on the midway
Of Saint Peter's county fair

Oh who needs place to settle in
On a cell to Madeline
Shining in the dell sun
Prayers dance across the prairie
Nothing there is ordinary
Always with the ones you love
On the country side of heaven
On the country side of heaven oh

Hear the jumping off the back porch
Into a crowd up in the sky
Water turns into sweet tea
On the bayou bayou oh

Oh who needs place to settle in
On a cell to Madeline
Shining in the dell sun
Prayers dance across the prairie
Nothing there is ordinary
Always with the ones you love
On the country side of heaven oh
On the country side of heaven
I want to go
To the country side of heaven
The country side of heaven
On the country side of heaven
Someday that's where I'll be
Singing harmonies with Jesus
When you get there look for me
On the country side of heaven oh
On the country side of heaven oh
On the country side of heaven oh
On the country side of heaven oh
On the country side of heaven

Heaven heaven heaven heaven heaven
