

# Hearts I Leave Behind

Craig Morgan

I wanna find what others rarely find  
Conscience clean and peace of mind  
Life like a book I'm proud to sign  
Written on hearts I leave behind

I wanna roll on a road of my own design  
We're fear and faith they're intertwined  
Hoping there's a finish line  
Within the hearts I leave behind

If God let's me choose where I go when I die  
Then I'll lay my head down where love resides  
And I'll never have to say goodbye  
I'll live in the hearts I'll leave behind

I wanna leave a mark a permanent kind  
And I was here that don't fade with time  
A sacred place that's only mine  
Within the hearts of those I leave behind

If God let's me choose where I go when I die  
Then I'll lay my head down where love resides  
And I'll never have to say goodbye  
I'll live in the hearts I'll leave behind

Safe in the hearts I leave behind
