

Wave of Tomorrow

Crash Kings

Oh start your cars
Strike the walls around us
Take on your marks
Let the open road surround us

Oh start your cars
Strike the walls around us
Take on your marks
Let the open road surround us

Come ride the wave of tomorrow
Before you know it we'll be higher

We're slow, but never mind
There's a passion inside
Full of lighthearted mystery

See where the future lies
Picture humans disguised
Just like fools on a rocket ship

Time's on our side
Let the calm collect us
Search far and wide
May the unknown protect us

Come ride the wave of tomorrow
Before you know it we'll be higher

We're slow, but never mind
There's a passion inside
Full of lighthearted mystery

See where the future lies
Picture humans disguised
Just like fools on a rocket ship

Come ride the wave of tomorrow
Before you know it well be higher

We're slow, but never mind
There's a passion inside
Full of lighthearted mystery

See where the future lies
Picture humans on ice
Never once thinking twice
Just like fools on a rocket ship
